PROFILE SUMMARY

Passionate **Cyber Security** enthusiast with hands-on experience in web security, Linux systems, and penetration testing. Actively participates in **Capture The Flag (CTF)** competitions and security research.

EXPERIENCES

PT Inovasi Informatik Sinergi

Security engineering

- **Cybersecurity & Incident Response:** Mitigated security threats, handled incident response, and performed vulnerability assessments.
- **Infrastructure, Hardening & Monitoring:** Configured system hardening, managed server infrastructure, and set up continuous monitoring solutions.
- **Software & Backup System Engineering:** Engineered reliable backup systems and assisted in software deployment automation.

Juli 2026 – Oct 2026

Pentester.ID

During my internship, I performed comprehensive vulnerability assessments, network reconnaissance via Nmap, and web application exploitation.

- Effectively reported discovered vulnerabilities to key stakeholders.
- Performed website penetration testing and network segmentation assessments.
- Collaborated with a red team to identify and exploit security vulnerabilities in diverse systems.

Dec 2021 – Sep 2023

EDUCATION

Politeknik Negeri Banjarmasin

Sep 2024 – Nov 2026

- Associate's Degree in Information Systems

SMKN 1 Gambut

May 2021 – Jun 2024

- High School Diploma in Multimedia (Score: 76.98)

SKILLS

- **Technical & Security:** Penetration Testing, Web Security, Linux Administration, Docker, Ansible, Nginx, Basic Reverse Engineering
- **Languages & Frameworks:** PHP, Laravel, Go-lang, Python, AI Agent
